GIVE A DRESSER A  
*mini-makeover*

Here's a weekend project that anyone can do. Dress up a dresser with new paint and knobs.

*before*

1

**GET READY**

Empty the contents and remove the existing drawer pulls or knobs.

2

**SAND + PRIME**

Sand the outside to create a rough surface for the paint to stick to. Then apply a coat of primer and let it dry.

3

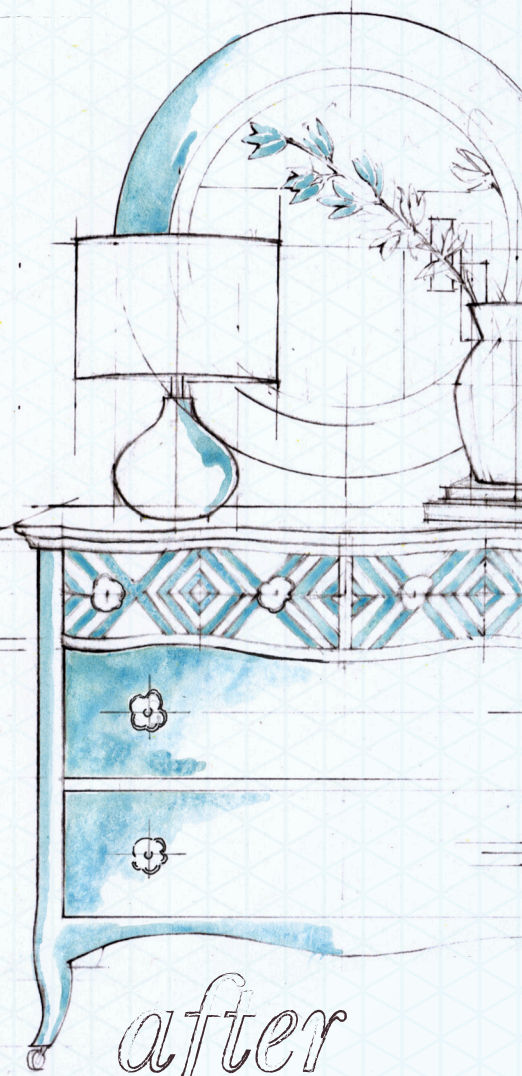

**PICK PRETTY PAINTS**

Use a fat brush or roller and let it dry between coats. For fun, paint one of the drawers with a contrasting color or pattern!

4

**APPLY NEW HARDWARE**

Once the dresser is dry, screw on the gorgeous new knobs you've picked out. And, voila!

*after*

**EXTRA CREDIT**

Line the drawers with wallpaper to dress up the inside, too!
